

## Chuck Close Inspired Portrait

Chuck Close Self-Portrait

Create a portrait using the same grid method technique of Chuck Close. You will decide on orientation, shapes, colors, and digital painting technique.

### Finished Project Requirements:

- Use portrait as the basis for your design
- In Photoshop, File > Open your photograph
- Image > Image Size - Alter your document to a minimum of 8.5 by 11 inches
- Set up a Grid:
  - View > Show > Grid
  - Photoshop > Preferences > Guides, Grid, & Slices
  - Grid needs to be at least ½ inch in diameter.

❑ Demonstrates creativity and experimentation while using an assortment of digital painting techniques. Some options to consider:

- Square Brush (Located in your Brush Options)
- Edit > Fill within a selected square
- Image > Adjustments within a selected square
- Mixer Brush
- Blur Tool & Smudge Tool within a selected square
- Opacity
- Duplicate with Move Tool

❑ Two files need to be submitted to your Google Drive Folder - PSD & JPEG

Here is a sample screen of what my test project started out as. This also gives you a view of how to locate your Square Brush.
